

2 - PNSA / US Ski and Snowboard ALPINE PROGRAM

How To Become A Competitor

Anyone who is interested in ski racing can join US Ski and Snowboard. Once you have made this decision, you can join online at <https://usskiandsnowboard.org/membership> You can print a copy of the Alpine Competition Guide at <http://alpine.usskiteam.com/alpine-programs/officials/rules> and a copy of your license through the [myUSSA](#) link found on the US Ski and Snowboard website. This license allows you to compete in sanctioned PNSA / US Ski and Snowboard competitions. A schedule of events is available on the PNSA website at <http://www.pnsa.org/calendar>.

It is also advisable that you join a local ski club or training program that prepares racers for US Ski and Snowboard competition. Such programs exist at most ski areas around the Pacific Northwest, and offer assistance in scheduling, on-snow training, physical conditioning, travel arrangements and many other benefits. The PNSA office will have information on programs in your area, and they are available on the PNSA website at <http://www.pnsa.org/clubs>.

If you are 11 years of age or younger, you will be joining a Youth Ski League (YSL) program (also known as Buddy Werner / Mitey Mite programs). These are "learn-to-ski-race" programs that teach the basics in ski competition and technique. Racers 12 -20 years old join the Junior level of racing. This is the "classification" level that ranks racers in the United States. Also, any racer 21 years and older may join the PNSA Masters racing program.

If your aspirations are to become the best racer you can be, even compete at international and Olympic races, then you should join US Ski and Snowboard / PNSA. US Ski and Snowboard / PNSA racers are the only racers recognized by the United States Ski Team, the International Ski Federation and the US Olympic Committee.

Competitor Classification

There are three types of *competition classifications* in PNSA/ US Ski and Snowboard racing: Age, Ability and Masters. Age classification (U8 - Senior) races are based on age classes/groups of athletes, whereas Ability classification races are based on rankings in the National Points System (U14 – Senior). Masters classification races are for the 21 and older athlete who seeks recreational competition without scoring to the National Points System. The three types of competitions are further defined below.

Age Classification / Age Class Racing

Age Classification is based on your age as of December 31st of each season. Competitions of this type are open to all athletes who meet the age-class criteria for the event.

Youth Ski League – Mitey Mite

These competitions are for the youngest athletes – ages 5 to 13 (U8-U14). They offer a fun introduction to ski competition for the beginning racer.

Evergreen Cup

This is the development level of PNSA racing and is open to all U14-Senior competitors. Athletes are introduced to the National Points System to handicap and rank them among other racers in the United States

Ability Classification / Ability Racing

The PNSA/ US Ski and Snowboard Junior Program also classifies racers by ability. This is accomplished by using the National Points system to handicap racers and rank them among other racers in the United States. As a racer's ranking, or handicap, improves, the racer becomes eligible for higher levels of competition. Competitions in this category are open to all athletes who meet the ability/ranking criteria for the event.

Northwest Cup/U16 Series

This is PNSA's premier level of US Ski and Snowboard divisional racing and is open to U16 and older. The Northwest Cup series serves as the divisional trophy series, crowning the division's overall champions as well as team champions in the U16 and U19/21 age classes. The Northwest Cup is the elite level in the PNSA, from which racers qualify to regional, national, and foreign FIS competitions by improving their ranking in the National Points system.
