

Hello –

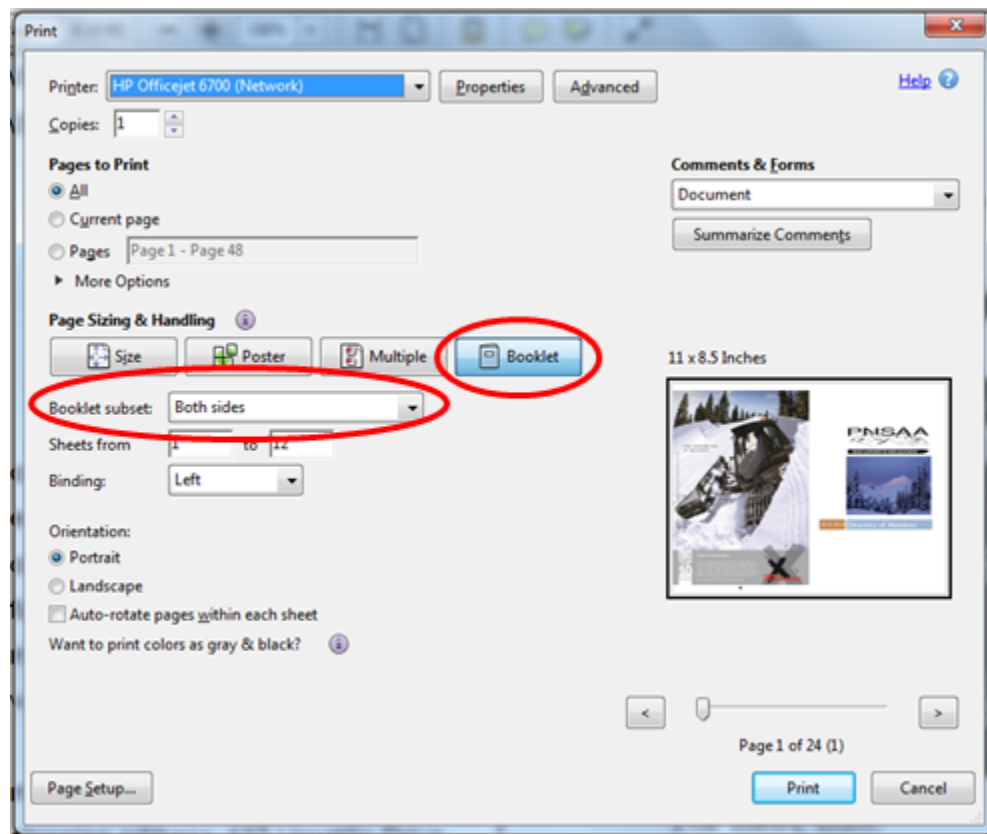

Your copy of the 2018-19 PNSA Competition Manual is available on the website. This [PDF file \(Adobe Reader\)](#) allows you to do the following:

- Store the manual on your computer for easy reference. You can search the document by holding down the “Ctrl” and “F” key. Type in the term you want to search in the “blue” box that appears in the upper right of your screen, then enter.
- Send an email or link to a website from the manual by clicking on their email address or the website link.
- Adjust the size of the manual to make match your reading preference.
- You can easily forward the manual to anyone who would like to receive it.

An advantage of an electronic version is contact information updates can be made periodically through the year rather than once in the fall thus making the manual more current and useful. Click to get the free download if you don’t currently have [Adobe Reader](#).

You can also print a copy for yourself if you prefer, here’s how:

- The manual is formatted as a booklet to print on

8.5”x11”. In the print dialogue box “booklet” should be selected. If it is not, select that option. (see illustration above). Also, if your printer is capable of printing on two sides be sure the booklet subset is selected on “both sides”. When you have made all your selections click the “print” button in the lower right hand corner. The manual is 23 pages total; if printing on both sides of the paper you will get 6 pages, or 12 pages if you are printing on one side of the paper.
