

Hello all,

I'm looking for a few women to help fill my alpine ski team starting this Spring semester 2019 (January) and/or Fall semester 2019 (August).

RMC's ski teams have a diverse ability range, from low FIS points to high school skiers, so I'm not looking for a specific point profile.

RMC is a member of USCSA, but also competes in RMISA FIS-U, FIS, and USSA events around the West.

We are a full varsity program and pay all expenses while competing.

Annual scholarship awards from \$14,500 to \$27,982 - full tuition.

Now is a great time to capitalize on or maximize one's scholarship amount here at Rocky.

For more information please contact me and/or pass on my information to your athletes or other persons whom maybe interested in this opportunity.

Males may also apply.

Thanks for your time.

Dear Friends of Skiing ---

As we strive to open doors for athletes seeking collegiate opportunities, starting in the Fall 2019, The College of Idaho Ski Team will continue offering multiple athletic scholarships options for your divisional alpine skiers. The ski team is seeking to add 5 men and 10 women to our roster with \$3,000/year offer, with out-of-state athletes (seeking diversity) being offered an additional \$2,500/year. Furthermore, there will be merit scholarship available based on academic prowess. The preference is that the athletes are members of your divisional team, regardless of their point profile; however, equally as important is your recommendation regarding their quality of character. That said, I ask your assistance and your recommendation by sending me their contact information so that I may forward a more formal invite to join our team.

Please reach out if you have questions or seek additional information.

Best regards-----

Ron Bonneau
The College of Idaho Ski Team
